

Informing Parents About MTSS/RTI

Information to be included in a **Parent Pamphlet** covers the important points that parents need to know:

- MTSS/RTI is a set of ideas focused on how to help **all** children to be successful in school.
- They can expect information and involvement in planning and providing interventions to help their child succeed.
- The levels of support increase or decrease over time depending on their child's needs.
- The meaning of terms used by staff when talking about MTSS/RTI - such as universal screening, progress monitoring, tiered system of supports, intervention, etc. For example, "progress monitoring" is information about how their child responds to intervention.
- Information about what they can do at home to support their child.
